

Quarkonium Working Group Workshop 2010 (2)

Wednesday, May 19, 2010

Production - 1 West (4:55 PM - 7:10 PM)

time	[id] title	presenter
4:55 P	[M2] Double charmonium production in exclusive bottomonia decays	BRAGUTA, Victor
5:15 P	[M3] Refactorizing NRQCD short-distance coefficients in exclusive quarkonium production	YU, Jia
5:35 P	[M4] QED contribution to the production of $J/\psi + c \text{ anti-}c + X$ at the Tevatron and LHC	HE, Zhi-Guo
5:55 P	[M5] Testing the charmonium production mechanism via polarized J/ψ pair production at the LHC	QIAO, Cong-Feng
6:15 P	[M6] Recent progress in understanding quarkonium polarization (35+10)	FACCIOLI, Pietro
